### **Manufacturing Information**

Our "Date Coding System" is done via a batch number that is tied to our fiscal year. Our fiscal year runs from November 1<sup>st</sup> to October 31<sup>st</sup> of the following calendar year. The batch number is a series of six (6) digits. The first digit represents the first year in a ten (10) year cycle – with a 1 representing the fiscal year that is divisible by 10; i.e. 1 \_\_\_\_\_ would represent our fiscal year 2000, 2010, etc.. The next two (2) digits represent the fiscal month that the batch was made; i.e. \_ 01 \_\_\_ would represent our first fiscal month, which is November. The final three (3) digits represent the sequence within a month that the batch was made; i.e. \_\_\_ 001 would represent the first batch made in that month.
